

K-Love Radio is important to the community of San Antonio, Tx because it is one of three radio stations that provides contemporary music without the filth and innuendo witnessed on most popular stations. If K-Love is displaced it will leave many families without a radio station to listen to, since many of us choose to protect our children from secular music content. K-Love is provided in the public interest of promoting a family station, and as a safe place for children to listen on the radio.
